TOBIAS SETZ CTO

Tobias holds a master degree in Computational Science and Engineering from the Swiss Federal Institute of Technology in Zurich with a major specialization in theoretical physics and a minor specialization in financial engineering. He is a PhD candidate at the Institute for Theoretical Physics (Econophysics Group) at ETH Zurich, (co)author of several articles and books and maintainer of the Rmetrics software libraries since 2011. Since November 2016 Tobias is the main architect of the OpenMetrics Solutions technology framework and engaged in implementing state-of-the-art solutions for our clients.
